## **Important Announcement**

### **The 2012 State Aging Conference Has Been Cancelled**

The statewide Aging Conference has run successfully for many years, thanks to the support of DAAS, the Arkansas Association of Area Agencies on Aging, the vendors, speakers, conference team, and attendees. After much consideration, it is decided the time is right to discontinue the conference. Over the past several years, new sources of excellent opportunities for training and continuing education have developed. It's easier now to identify relevant subject-specific training at an affordable price, and to participate either locally or remotely. This saves time and money, and minimizes disruption in the workplace. Networking among aging services providers and public recognition of award winners will continue through other venues.
